Amendments to Claims

What is claimed is:

1	1.(currently amended) A travel assistant device comprising:
2	a hard disk drive including at least one database;
3	a digital camera;
4	a microphone;
5	a display screen;
6	at least one speaker;
7	database software by which images and sound input from said digital camera and said
8	microphone are stored in said hard disk drive as a personal log database, which can be displayed
9	on said display screen and through said speaker, where said personal log database may be
10	updated by the additional commentary and images as desired, and where said database software
11	retrieves downloaded database information which includes images, sound files and text which
12	act as a travel instructor; and
13	a portable translator device which includes an Optical Character Recognition engine,
14	which takes input of graphic images of words from said digital camera in a language unfamiliar
15	to the user and converts them to characters in said unfamiliar language, and a dictionary module
16	which takes said characters generated by said Optical Character Recognition engine and
17	produces translated files in a language familiar to the user, and outputs said translated files to
18	said view screen and said at least one speaker.
1	2. (original) The travel assistant device of claim 1, further comprising:
2	a touch-screen display.
1	3. (original) The travel assistant device of claim 1, wherein:
2	said display screen displays slides.
1	4. (original) The travel assistant device of claim 1, wherein:
	said display screen displays MPEG movies.
i	5. (original) The travel assistant device of claim 1, wherein:
2	said at least one speaker plays sound files.
1	6. (original) The travel assistant device of claim 1, further comprising:
2	a Global Positioning System (GPS) module.
1	7. (original) The travel assistant device of claim 6, wherein:
2	said GPS allows downloads of interactive digital guide information.
1	8. (original) The travel assistant device of claim 6, wherein:
2	said GPS allows tracking of the user.
1	9. (original) The travel assistant device of claim 1, wherein:
2	said personal log database produces HTML files for output to web sites.

- 1 12. (currently amended) The travel assistant device of claim [[11]] 1, further comprising: 2 a text-to-speech engine.
- 13. (original) The travel assistant device of claim 1, further comprising: 1 2 an MP3 player.
- 1 14. (original) A portable translator device comprising: 2

a hard disk drive including at least one database;

a digital camera which inputs graphic images of words in a language unfamiliar to the

user; an Optical Character Recognition engine which resides on said hard disk drive, which takes said input graphic images of words in a language unfamiliar to the user and converts them to characters in said unfamiliar language;

a dictionary module which is downloadable to said at least one database on said hard disk drive, and which takes said characters generated by said Optical Character Recognition engine and produces translated files in a language familiar to the user; and

at least one output device which takes said translated files and outputs them to the user.

- 1 15. (original) The portable translator device of claim 14, wherein:
- 2 said at least one output device includes a display screen.
- 1 16. (original) The portable translator device of claim 14, wherein: said display screen displays slides.
- 1 17. (original) The portable translator device of claim 14, wherein: said display screen displays MPEG movies.
- 18. (original) The portable translator device of claim 14, wherein: said output device includes at least one speaker.
- 1 19. (original) The portable translator device of claim 18, wherein:
- 2 said at least one speaker plays sound files.
- 1 20. (original) The portable translator device of claim 19, wherein:
- 2 said output device includes a text-to-speech engine.
- 1 21. (original) The portable translator device of claim 14, further comprising: 2 a personal log device.
- 1 22. (original) The portable translator device of claim 14, further comprising:

2 a microphone. Atty. Ref.:HSJ9-2003-0210US1 (60717-342501) Page 4 of 15

an MP3 player.

1 2 3 4 5	23. (original) The portable translator device of claim 22, further comprising: database software by which images and sound input from said digital camera and said microphone are stored in said hard disk drive as a personal log database, which can be displayed on said display screen and through said speaker, where said personal log database may be updated by the additional commentary and images as desired.
1 2	24. (original) The portable translator device of claim 23, wherein: said personal log device produces HTML files for output to web sites.
1 2	25. (original) The portable translator device of claim 23, wherein: said personal log device produces MPEG movies.
1 2	26. (original) The portable translator device of claim 14, further comprising: a travel instructor device.
1 2 3 4 5	27. (original) The portable translator device of claim 14, further comprising: database software by which image and sound files from a downloadable database are stored in said hard disk drive as a travel instructor database, said images and sound files being displayable on said at least one output device and where said image and sound files act as a travel instructor.
1 2	28. (original) The portable translator device of claim 14, further comprising: a Global Positioning System (GPS) module.
1 2	29. (original) The portable translator device of claim 28, wherein: said GPS allows downloads of interactive digital guide information.
1 2	30. (original) The portable translator device of claim 28, wherein: said GPS allows tracking of the user.
1 2	31.(currently amended) The portable translator device of claim [[1]] 14, further comprising: an MP3 player.
